

Table 1. Crosstab analysis of Medical students' reported experience in obstetrics and gynaecology (O&G) rotation.

Variable	Male Year 5 JCU medical students (n=73)	Female Year 5 JCU medical students (n=88)	p- value*
Has gender been of benefit or drawback during the RNH rotation?			
Drawback	35 (48%)	5 (6%)	p<0.001
No impact	33 (45%)	47 (53%)	
Benefit	5 (7%)	36 (41%)	
My practical skills have improved from my RNH term			
Disagree/Neutral	8 (11%)	20 (23%)	p=0.020
Agree	42 (58%)	49 (57%)	
Strongly Agree	23 (31%)	17 (20%)	
My communication skills have improved because of my RNH term, especially regarding obstetrics and gynaecology			
Disagree/Neutral	16 (22%)	22 (26%)	p=0.381
Agree	45 (62%)	54 (63%)	
Strongly Agree	12 (16%)	10 (12%)	
I found it difficult to gain experience in labour ward			
Disagree/Neutral	36 (49%)	31 (36%)	p=0.111
Agree	19 (26%)	27 (31%)	
Strongly Agree	18 (25%)	28 (32%)	
Overall, I found RNH to be a good			
			p=.322

experience	12 (16%)	12 (14%)
Disagree/Neutral	46 (63%)	50 (58%)
Agree	15 (21%)	24 (28%)
Strongly Agree
